## Northern Region Builder of the Year Press Release

### For Immediate Release

### LOCAL CONTRACTOR HONORED BY BUTLER MANUFACTURING COMPANY

**Dutton & Garfield, Inc.**, a general contracting company located in Hampstead, New Hampshire, has been named **Northern Region Builder of the Year** by the Buildings Division of Butler Manufacturing Company, the world leader in the development and manufacture of metal building systems.

This award was presented by Greg Robinson, Northern Regional General Manager and Melissa Stewart, Northern Regional Sales Manager, at Butler's 2006 national sales meeting. Receiving the award on behalf of **Dutton & Garfield, Inc.** were Steven R. Webster, President, Keith A. Wentworth, Vice President and Jane I. Armstrong, Controller. Recent local projects using Butler building components include F.W. Webb in Gilford, NH, Concord Monitor Re-Roof in Concord, NH, and Huttig Building Products in Hooksett, NH.

The designation is awarded to one Butler Builder® per region who excels in the sale of Butler building and roof systems as well as demonstrates superior marketing skills.

**Dutton & Garfield, Inc.** was established in 1970 and has been marketing and building Butler buildings since that time.

With more than 1,200 Butler Builders® nationwide, Butler Manufacturing Company is a leader in Systems Construction. Systems construction solutions are applied to the majority of all non-residential, low rise buildings under 150,000 square feet in size. Advantages of Systems Construction over traditional construction methods include: faster construction time, lower costs, reduced maintenance costs and ease of expansion. Systems Construction also produces an energy efficient building that can provide a greater return on your investment.
